For more space, use the back of this sheet.

The piece in this year's May Show expresses some of my artistic concerns. These include formalism, emotionally satisfying content, the concept of nature (or "naturally" seen things) taken out of context and returned visually as an artistic statement, as well as color used expressively. I use selected manipulation to present the real not as reality objectified but not ~~too~~ so altered as to be a lie. It might have been just as you see it some time for someone.
